Run/Walk for the Graduates of 2010!

Project Graduation is an all-night celebration for seniors on the night of graduation.

Project Graduation originated in Maine in response to the deaths of 12 teenagers in alcohol-related highway crashes. The idea of Project Graduation is spreading across the nation because graduation night and prom night are the two most deadly nights for teenagers. Project Graduation has saved lives in every community where it is held and hundreds of schools in the state of Texas now host these parties. This celebration lasts throughout the night and is packed with food, activities, music, prizes and entertainment! This event provides a fun and safe environment for the graduating senior's last social event together. We invite you to join in a fun community event to support this effort.
